PROJECTS / OPEN-SOURCE

NFT- HUB | [LINK](#)

ReactJs, Python, Flask, TensorFlow, Docker

With this project, I was aiming at creating an NFT marketplace where we can buy and sell NFTs. NFTs are automatically generated with a single click using Machine Learning

PROFESSIONAL STACK | [LINK](#)

ReactJs, Django, MySQL

This is a project that I am working on using React and Django. This website would act as a mix of Quora, Stack Exchange, and Discord. I would be creating only basic functionalities till now.
